

Welcome at Restaurant Fris,

Fris offers a **honest** kitchen with recognizable dishes of high quality, served in a **relaxed** atmosphere. Naturally we are only using fresh, and **beautiful** products of the current season. Preferably from the best **Dutch** suppliers.

We are a young team with ambition, and we're striving for **perfection**. At Fris we equally respect our food and wine, this is the same for our guest and employees. We would like to give our guests an **unforgettable** experience. Our goal is to present a high and honest **quality** of food, in a casual ambiance.

Let the chef surprise you with our **Jeune Restaurateurs d'Europe** (JRE) menu. Through the years our maître / sommelier has chosen a beautiful selection of wines from all over the **world**. From the old world and new world alike. We don't serve a wine arrangement at Fris, But we would be more than happy to help you to make a decision, or to give you advice on our selection of wines.

On **Wednesday** and Thursday we serve at least **3 courses**.

On **Friday** and Saturday we serve at least **5 courses**.

At this moment we only have our **JRE** menu to choose from. We would ask kindly to pass along any allergies or diet wishes, so that our chef can make the necessary changes for your menu.
